

R7 historical syllabus fixture. Course 6.854J, Advanced Algorithms, was taught in Fall 2005. It belongs to Electrical Engineering and Computer Science and Mathematics and is graduate level. The instructor was David R. Karger. The meeting pattern was three one-hour lectures each week. This concise evaluation adaptation was checked against the cited MIT OpenCourseWare syllabus on 2026-09-08 and is not a current MIT catalog statement.

Preparation facts. Course 6.854J assumed an undergraduate algorithms course such as 6.046J. Some exposure to probability was also assumed; either 6.041 or 6.042J was described as more than sufficient preparation. Course 6.045J, Complexity Theory, was described as a bonus rather than a prerequisite. Adapted from MIT OpenCourseWare under CC BY-NC-SA 4.0; changes were made for a noncommercial retrieval fixture, and no MIT endorsement is implied.
